Introduction to Brass Components Export

Exploring O.K. Engineers and the Brass Industry's Role in Global
Manufacturing and Supply Chains

About O.K. Engineers

Leading Manufacturer of Brass Precision Parts

1 Company Name

O.K. Engineers is a recognized name in brass precision turned parts manufacturing.

2 Location

Based in Jamnagar, Gujarat, India, a hub for brass manufacturing.

3 Website

Visit our official website at okengineers.com for more information.

4 Experience

With over 60 years of experience, we excel in quality and innovation.

5 Commitment to Quality

Utilizing advanced machinery ensures our products meet high-quality standards.

6 Specialization

We specialize in a diverse range of brass products tailored to customer needs.

7 ISO Accreditation

ISO 9001:2015 accredited, demonstrating our commitment to quality management.

Product Range of O.K. Engineers

Overview of Brass Components Offered

- 1 Brass Lamp Parts**
Essential for lighting fixtures, providing durability and design versatility.

- 2 Plumbing and Sanitary Fittings**
Durable fittings suited for both residential and commercial plumbing needs.

- 3 Hydraulic and Pneumatic Components**
Crucial elements in fluid power systems used across various machinery.

- 4 Electrical Accessories**
Includes sealing screws and inserts, vital for various electrical applications.

International Reach of O.K. Engineers

Global Presence in Key Markets

Established Presence in Key Markets

O.K. Engineers operates in the USA, UK, Germany, and France.

Diverse Sector Engagement

The company serves sectors like electrical, automotive, and telecommunications.

Strong Demand for Brass Components

High demand highlights O.K. Engineers' reputation for quality and reliability.

Quality Standards and Certifications

Understanding O.K. Engineers' Quality Commitment

Quality Certifications

O.K. Engineers is ISO 9001:2015 accredited, ensuring adherence to strict quality management standards.

Commitment to Improvement

The ISO accreditation reflects a commitment to continuous improvement and customer satisfaction.

Material Specifications

Products comply with both European and U.S. material specifications, enhancing global competitiveness.

Exceeding Expectations

By adhering to these standards, O.K. Engineers ensures products exceed customer expectations.

Trusted Exporter

O.K. Engineers solidifies its position as a trusted exporter in the global market.

Unlock Your Potential in Brass Exporting

Discover the vast potential in the brass components export market with O.K. Engineers. We provide quality products and reliable service, tailored to meet your business needs. Act now to secure your advantage
