

Duplex Steel and Engineering Company

Duplex steel plates, known for their strength and corrosion resistance, are essential in industries like chemical processing and petrochemical. Metal plates come in a range of thicknesses, from a few millimeters to several inches, depending on their application.

About us

Duplex Steel and Engineering Company is a trusted supplier, stockist, and exporter of high-quality stainless steel, duplex steel, carbon steel, and high nickel alloys. With decades of expertise, we specialize in providing sheets, plates, pipes, fittings, and flanges for various industries, including oil & gas, petrochemicals, and power generation. Our extensive inventory ensures quick availability, competitive pricing, and global delivery. Committed to excellence, we prioritize customer satisfaction and offer tailored solutions for diverse industrial applications.

Our Services

Duplex Steel Plates

Upgrade your industrial projects with high-quality Duplex Steel Plates from DUPLEX STEEL AND ENGINEERING COMPANY. Our plates offer exceptional strength, corrosion resistance, and durability, making them ideal for marine, chemical, and structural applications.

Super Duplex Plates

Enhance your applications with high-performance Super Duplex Plates from DUPLEX STEEL AND ENGINEERING COMPANY. Our plates offer superior strength, corrosion resistance, and excellent weldability, ideal for offshore, marine, and industrial use.

Duplex Stainless Steel Plate

Get top-quality Duplex Stainless Steel Plate from DUPLEX STEEL AND ENGINEERING COMPANY for enhanced durability and corrosion resistance. Our plates are widely used in industrial, marine, and chemical sectors, ensuring high strength and excellent performance.

Duplex Steel Plates Supplier

Looking for a reliable Duplex Steel Plates Supplier? DUPLEX STEEL AND ENGINEERING COMPANY provides premium-grade Duplex Steel Plates with superior strength, corrosion resistance, and durability. Our plates are widely used in offshore, chemical, and industrial applications.
