About us

The Swiss Watch Company was founded by Arun D'Silva and Jayanti Varma, driven by their shared commitment to the luxury Swiss watch market in India. After losing their corporate jobs in 2000, they decided to venture into brand management, ultimately creating Retail Interface Pvt Ltd. The company specializes in introducing family-owned Swiss watch brands like Raymond Weil, Frederique Constant, Alpina, and others to India. They have established a trusted presence across 75 stores in 15 cities and a leading online platform for Swiss watches. Their mission is to offer high-quality, authentic timepieces while fostering a deep appreciation for horology in India.
